Re: 107-16943-00038
Second Administrative Amendment to
Part 70 PSD Permit
No. 107-12143-00038

Dear Mr. Sulc:

Nucor Steel, located at RR2, Box 311, Crawfordsville, Indiana 47933 was issued a PSD permit (107-112143-00038) on January 19, 2001 for construction of a strip caster line at their Crawfordsville plant. Condition D.5(e)(1) of this permit allows for construction of a Cold Mill Roof Monitor.

Nucor Steel has stated that preliminary engineering and design on the Cold Mill Roof Monitor was started within eighteen (18) months of the permit issue date but construction on the roof has become a safety issue due to winter weather. Because of this, Nucor Steel is requesting an extension to construct and install the Cold Mill Roof Monitor until July 31, 2003.

Based on Prevention of Significant Deterioration (PSD) requirements contained in IAC 326 2-2-8, approval to construct shall become invalid if construction is not commenced within a period of eighteen (18) months after receipt of such approval, if construction is discontinued for a period of eighteen (18) months or more, or if construction is not completed within a reasonable time. The commissioner may extend the eighteen (18) month period upon a satisfactory showing that an extension is justified.

Based on Nucor Steel's statement that work on this project began within the eighteen (18) month period and the fact there is a winter weather safety issue, IDEM, OAQ has decided to grant the extension to construct and install the Cold Mill Roof Monitor until July 31, 2003.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5.
If you have any questions on this matter, please contact Walter Habeeb at (317) 232-8422.

Sincerely,
